DETAILED ACTION

Claims 20-29 are currently pending and are present for examination.

Applicants' amendments and arguments filed on 6-16-04, have been fully considered and are deemed to be persuasive to overcome the rejections previously applied. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. Specifically Examiner has withdrawn the previous rejections under 35 U.S.C. 112, 1st paragraph and 35 U.S.C. 102(a) and (b) in view of claim amendments. Furthermore, Examiner has withdrawn the rejection based on inherency in view of the fact that there is more than one type of polypeptide with RGS activity in both humans and mammals.

Drawings

Drawings submitted in this application are accepted by the Examiner for examination purposes only.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Kerri Pollard Schray on 8-31-04.

The application has been amended as follows:

Art Unit: 1652

In the claims:

- A) In claim 21, line 2, insert the following phrase “ and wherein said polypeptide continues to have the activity of regulating G-protein signaling (RGS)” after the phrase “fusion protein”.
- B) In claim 24, line 2, insert the following phrase “ and wherein said polypeptide continues to have RGS activity” after the phrase “fusion protein”.
- C) In claim 28, line 2, insert the following phrase “wherein said polypeptide continues to have RGS activity” after the word “sequences”.

Allowable Subject Matter

Claims 20-29 are allowed.

The following is an examiner's statement of reasons for allowance: Following a diligent search it was determined that the prior art neither teaches nor suggests a polypeptide comprising either SEQ ID NO:2 or SEQ ID NO:4 having the RGS activity or fusion proteins comprising SEQ ID NO:2 or SEQ ID NO:4 with said activity as claimed in claims 20-29.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
